

## L97 Mini-Magnet Laser Level

### A laser beam simplifies alignment.

The L97 Mini-Magnet Laser Level is the third in a series of Greenlee professional levels. The L97 Mini-Magnet Laser Level combines the handy “no-dog” feature with a laser. The laser projects a beam which helps to align objects, making a variety of applications easier including bending conduit, aligning a electrical panel box or plumbing metal cabinets.

The L97 Mini-Magnet Laser Level provides the electrical worker with a variety of value-added features such as three rare-earth magnets and a compact size. Even with the compact size, the

Greenlee L97 laser has a range of over 80 yards. The four vial design also makes this tool useful in nearly every application. The V-groove on top of the level provides for easy viewing of the four vials. For added convenience, offsets and calculations are permanently engraved onto the level.

The L97 Mini-Magnet Laser Level is a great asset for any electrical worker!

## PRODUCT FEATURES

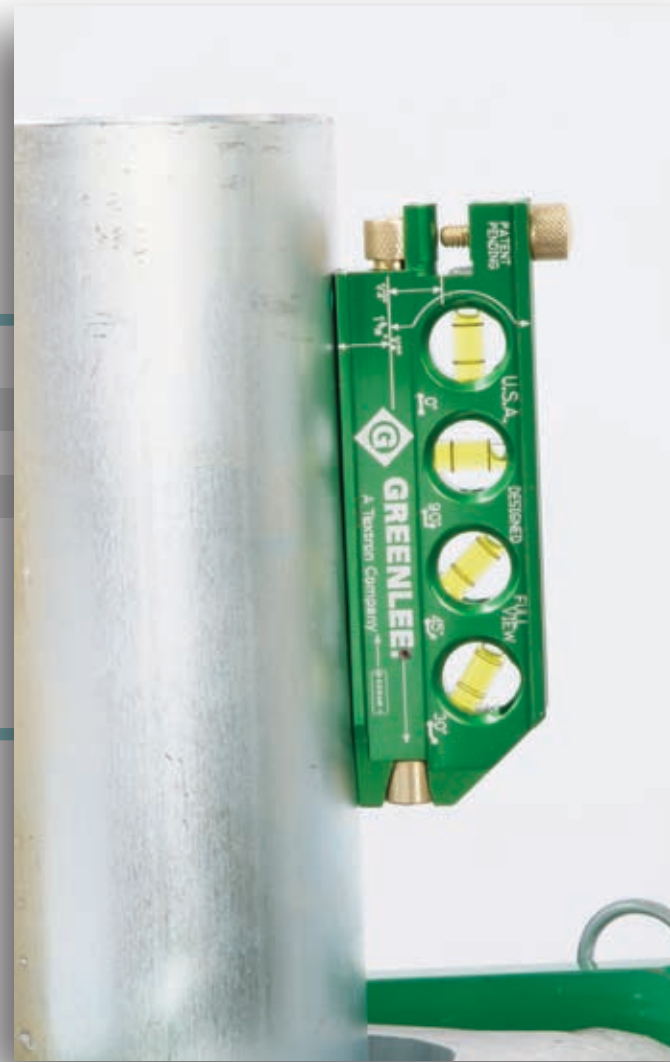

- Professional grade laser level.
- Mini torpedo design with handy “no dog” attachment for bending.
- Three rare earth magnets provide superior holding strength.
- Compact size with 80-plus yard range.
- Laser is capable of working on all planes.
- Four vial design – 0°, 90°, 45° and 30°.
- V-groove on top of level for easy view of vials.
- Offsets and calculations permanently laser engraved onto level.

## SPECIFICATIONS

Length:	5.63 inches
Width:	.75 inches
Height:	1.81 inches
Weight:	7.3 oz with batteries
